The span of the footbridge over the highway and connecting the two portions of the course between which Nahanton St. runs, was put in place by the contractor last Friday.

Shortly, when approach fences have been erected, and the 70-ft. span has been given the protection of fence rails, golfers will no longer have to contend with vehicular traffic in covering the 18 holes. And with that, the final chapter will have been written to the history of what at one time was a controversial "horse trade."

Last year, when the city decided to widen Nahanton St., it needed land for the purpose that belonged to the country club. It was proposed that instead of buying it, the city negotiate an even swap. In return for the required land, it would construct a footbridge for the golfers over the widened thoroughfare.

The plan met with strong opposition from some mem-bers of the Board of Aldermen, but the objectors agreed to the swap when the country club assured the Aldermer that on completion of the bridge it would assume own ership of the span and the re sponsbility of its main tenance.

The bridge's pre-stressed concrete elements were made by the N.E. Concrete were Pipe Corporation in near-by Dedham. Belli Brothers of Newton furnished the foot-

Water Skiers Can Take To The Air, Now

The first girl ever to fly on water skies took to the air recently at Cypress Gardens, ters over the weekend. Fla., with the help of Dyna flite Hydrafoils developed here at Newton Upper Falls by Cosmo Dynamics, Inc.

Lucas Emmanuel, president of the local corporation, says that the new hydrafoil developed by the company makes it possible to fly two feet above water at speeds up to 35 m.p.h..

The Dynaflites, like tiny airplane wings, are attached to the water skis. Riding them, the skier, Mr. Emmanuel says, can bank, dip, climb and glide with all the sensations of flying.

Unlike conventional water skiing, which requires speeds of 17 to 25 m.p.h., the Dynaflite Hydrofoils start lifting a skier out of the water at around 8 m.p.h. The new hydrofoils allow skiing and even flying with boats that have less than 15 h.p. motors, and it is pos sible to water ski in ro water since the foils slice through the waves.

Since riding a wing witi tip toe control can be tricky Dynaflites come with a fron double wing as well as a back wing stabilizer. This helps novice flyer to become air borne with as little as one-half hour practice.

Once flying is mastered the bottom training wing of the double wing is removed so that the skier can reach higher speeds.

As in flying, control depends on how the wings are angled. Because of the aerodynamic shape of the aluminum hydrofoils there is very little friction as they slice through the with headquarters located a water

The lack of drag magnifies the skier's every body movement, which makes control of Dynaflites different and more challenging than conventional water skiing.

There was a definite indication at Norumbega Park last Friday night that times changed, and have completed a cycle.

The usual dance at the Totem Pole was lightly at-tended, but an old fash-ioned "Hootenanny," held nearby in the park, brought out the largest turnout at Norumbega in years.

The increased size of the ommand is in keeping with he reorganization of the army under the direction of Secretary of Defense McNamara and Secretary of Army Cyrus Vance.

Among the Galvin command are a number of priority one forces—given the mission of being ready for 24-hour recall and commitment into a combat theatre in the event of emergencies such as the Cuban and Berlin crises.

General Galvin, whose new command by comparison is equal to that of an Army Corps, stated that he is in complete concurrenie with the readiness plans of the Army and Department of Defense

He pointed out that such decisions give increased responsibility to reservists themselves which is precisey what is needed.

Flaws Now Coming to Light In Peabody Reform Proposal

It is now pretty well established that Senate President John E. Powers knew what he was talking about when he declared that Governor Peabody's proposed reform amendment to the Constitution giving a Governor sweeping powers to reorganize State departments, was faultily drawn and contained several bugs.

A sizeable number of legislators have awakened to the fact that the so-called reform measure isn't quite what they thought it was. They indicate that they would like to have their votes back.

Some of them, indeed, even regret that they traded their votes for summer jobs or other gubernatorial favors such as having a truck owned by a constituent rented by the State.

Sept. Hearing On Move To Balk Apartment

The Planning Board and Aldermanic committee on Claims and Rules are sched-uled to give a public hearing on Monday evening, Sept. 18, to a recommendation by Ald-erman John P. McCarthy that the site of a proposed 16-unit garden apartment house be changed to Private Residence The city ordinances permit

garden apartments to be built in a Residence "D" zone with permission of the Alderman, permission of the Alderman, but in a Private Residence zone, only single or two-fami-ly dwellings are allowed. Alderman McCarthy's rec-

ommendation, therefore, is an apparent attempt to block the apartment house.

The site includes 29 Vernon St., Newton, where the Linda Land Corporation seeks site plan approval for a building with eight-two-bedroom and eight one-bedroom apart-ments. The petition, filed last January, had a public hearing in March. The site plan was given Planning Board approval, but the petition has been held in the Claims and Rules Committee.

Politics (Continued from Page 1)

Secretary of State Kevin H. White and State Treasurer John T. Driscoll, who are elected officials and answerable to the people, are understandably upset at the discovery that under Peabody's reform plan, a Governor could revamp their agencies.

Attorney General Edward W. Brooke is having a study made to determine what the reorganization implications are as far as his department is concerned

Barrel - Tripping Dogs

To the Editor: My trash barrels having just been turned over by a dog— for the umpteenth time—I am strongly reminded that a hear ing was held some months ago by our Aldermen on the question of a dog leash law. I have no doubt that they are very busy people, but it seems to me that, by this time, the public is entitled to an answer one way or the other. This is an

An issue of this importance cannot be allowed to hang fire indefinitely. The Aldermen must—without further delay gather up their courage and make a decision, guided only by their conscience and by their understanding of the best interests of the public. What-ever decision they make will, am certain, be respected and I am certain, be respected and obeyed by the public. Lack of a decision can only lead to furdadistribution and the second of the cerned public.

I would also, at this time, like to bring up the question of fluoridation of our water supply. The public voted affirma-tively on this issue almost a year ago, but to date our chilcreasing disgust, the progress of the building on Commonwealth Avenue which I believe is to house the fluoridation machinery. Trips for the Kinder Kamp, children 3-6 years of age, have been to Waldon Pond, and Thoreaus Hut, Pleasure Is-land, Norumbega Park, and the Franklin Park Zoo. The camp site, to the rear of the Warren Junior High School, has been a busy place with the children engaging in games, hikes, story hours, play in the swimming pool, way or the other. This is an especially important issue because of the health and safety aspects of the question—not to mention the nuisance probhouse, bicycle riding, etc.

Kinder Camp will continue to operate up through Friday, August 23rd. New registra-tions for this activity are being taken at the Newton Community Center. Day Camp continues to provide its many registered youngsters with a varied and

Teen Time Topics

BY DOT DUNN

Dear Dot, I am 16. I represent a group of five boys. We all have one strong complaint about the fairer sex. It doesn't seem very fair to us to have to look at girls and women wearing their hair up in rollers when engaged in any activities out-side the home. We first no-ticed girls wearing their hair in this manner when we went shopping. Last week we saw many of them while we were at the beach. On Sunday we sat behind one of these hair-does in our church. That was the final blow. How do you feel about this matter?

Dear T. D.,

When one lives in a group harmoniously, one has to have some duties. Have you ever considered what the other members of the family have to do. Just assume that you had to buy, pre-pare and pay for the food. Certainly you would have a complaint. I am sure if you look at this with a different attitude the problem will at least lessen. Try to realize that this makes you an im-portant member of the fam-ily group. You are learning to pull your end of the load.

Dear Dot,

My family won't allow me to have my own phone. I baby sit and earn enough money to be able to do this. My par-ents won't hear of it. I think this is very unfair. Do you?

Dear M. S.,

You didn't mention your age. If you are over 16, you might be able to have a family conference. Possibly if you were able to work out some ground rules, with your parents they would allow you this privilege. With the high cost of living these days, your parents may feel that you should save this money toward your education or your clothes. Try to find out the reason and you'll probably be the first one to understand their de-

Dear Dot,

During our vacation last summer I met a boy whom I liked very much. His family had a cottage near ours. He went with a girl, not in our crowd, and didn't pay any attention to me. We plan to be at the same resort this summer. Is there any way I can make him notice me? all mixed get when he's around. A.N.

Dear A.N.,

I think you should just relax and try being yourself. Start to think of others You'll soon find that you are having more fun. As a matter of fact your friends will enjoy being with you even more than ever. Try to look your best at all times. Join in group activities. Have some par Join in group ties at your cottage. this doesn't accomplish your mission, I think you doesn't had better change your sights. If this boy isn't your type, it's not hard to find one who is.

Dear Dot,

We always have such fun when we have a slumber party. We call up all the boys we know. Some are such good sports and yet others ppear very abrupt. Do ou think this is a good pracappear tice? J.D.

Dear J.D.

I am sure all teen-age girls go through this. I do think you should realize that some parents may not look with such glee upon their sons taking up so much of the evening on the telephone. So I feel that you and your friends should make any such calls telephone. of short duration. If you know a boy's mother objects, why bother?

POLITICAL HIGHLIGHTS

By JAMES G. COLBERT

Ted Kennedy Wins New Fight: Adds To Remarkable Record

Senator Edward M. (Ted) Kennedy really meant it when he campaigned last year on the issue that he could do more for Massachusetts.

He has been "doing more" for the Bay State ever since he assumed his seat in the U.S. Senate.

In fact, the record made by this energetic, hardworking freshman Senator in a period of a little more than seven months has been remarkable.

He works quietly and indulges in no political fanfare on Washington's Capitol Hill. For a short time you hear little about him. Then suddently you discover that Ted Kennedy has accomplished something important for the State he represents in the U.S. Senate.

His latest achievement was in winning the initial round in his fight to bring the proposed \$50 million

Bible Lesson On 'Spirit' To Be Read Sunday

A Bible Lesson on "Spirit" from the Christian Science Quarterly will be read this Sunday at First Church of Christ, Scientist, Newton. Responsive Reading by the

congregation will include this Scriptural passage from II Corinthians (3:17): "Now the Lord is that Spirit: and where the Spirit of the Lord is, there is liberty.

One of the references from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be this: "Man is tributary to God, Spirit, and to nothing else. God's being is infinity, freedom, harmony, and boundless bliss. "Where the spirit of the Lord is there is liberty." Lord is, there is liberty' (p. 481).

Rushin' Roulette by Chon Day

Driver error is the greatest cause of highway accidents.

The Nut Behind The Wheel

Another week-end score in highway Rushin' Rou-lette was announced last Monday and again the Bay State stands at the head of the class in New England

The madcap macadam mayhem goes on and on as our fellow Bay Staters are orbited from the driv-er's seat into eternity, often taking their families or friends along on the one-way journey.

Naturally, Massachusetts safety officials are showing increased concern and alarm over the awesome and mounting toll of violent deaths on the highways. A solution, or solutions, to the problem seem remote

Signs, safety slogans and campaigns, armies of dedicated law enforcement personnel, speed traps and radar have failed to control the slaughter.

Those in authority, who have cruised the State's motor roads, especially on thronged summer weekends, have been brought to a reluctant conclusion. It is one held mutually by motorists from out of our Commonwealth who find it necessary to use our highway facilities, to wit; car for car, woman for woman and man for man, Massachusetts seems destined to embrace the dubious distinction of possessing more than its share of nut drivers.

They are revealed in a variety of senseless and thoughtless hi-jinks, utter lack of responsibility and disregard for laws and fellow motorists. In most cases, this gentry also takes a keen delight in the floored accelerator, the roaring motor, screeching tires and jetpropulsion. - on wheels.

Notwithstanding the fact that their member-

Notwithstanding the fact that their membership is regularly depleted in a crashing rendezvous of shattered metal and mangled bodies, the Rushin's Roulette corps drives blindly and furiously on—to that pile-up 'round the bend.

Too much speed, too much power, too few brains, provide a frightful recipe for a Devil's Goulash combining what's left of a gasoline-driven juggernaut and its human accessories. This is usually served on a crowded week-end roadway well sprinkled with onlookers, many of whom missed being part of a similar of the results of the result lookers, many of whom missed being part of a similar mess by the scantest of margins and the benevolence of some spiritual force beyond our ken.

What's ahead for the American motorist? Well, there is a modicum of solace in the information that a total of 91,000,000 motor vehicle operator's licenses are in force today in this country. This means that more than half of our population over 14 are holders ton; David Sutherland and John Friedman, both of Newton Centre; Don Samuelson of Newton Highlands, Robert which was endorsed last year. of driving licenses-and more are being given out daily, yea, hourly.

careen out of control, bad breaks, loose steering me-chanicism, worn tires, but, often the major failing is William Roberts of Waban. Volpe's principal opponents found in the nut behind the wheel.

Could be that future tests for a license to drive will endeavor to delve into the noggins of the applicants, for within the cranium may be the seat of all the trouble—a lack of the proper mental equipment. It may help cut down the aspirin consumption among our distraught safety officials.

Proposed Gas Tax Hike Disturbs Highway Users

Editor. The Graphic:

According to news reports of Governor Peabody's recent press conferences, Massachu-setts highway users are threatened with a one-cent a gallon increase in the state tax on gasoline. This, of course, would extract another \$15 million a year from the motorists to be added to the more than \$300 millions they already are paying each year in special state and federal taxes and fees.

to the highway users and not likes to pay additional taxes. Ted Kennedy could win. The highway users are ex-tremely disturbed because no one has bothered to disclose (a) exactly how current highway user revenues are being expended, and (b) just how it is proposed to spend the additional \$15 million. They also are disturbed about the continuing investigations by fedand state agencies into the administration of the high-way program in Massachu-setts, and the withholding by the federal government of mi the receral government of milions of dollars in federal highway aid. There are many questions to be answered before Massachusetts highway users will look kindly on any proposal to increase existing asoline taxes.

By the same token, it should

be made clear that highway users have supported the expanded road program from the beginning. They have been the sole contributors to the Federal Highway Trust Fund, and have paid the lion's share of highway costs on the state and local levels. They will continue to support the program and want it kept on schedule. But if they must pay more taxes -they want to know why

Electronic Research Center to Massachusetts.

There were stories in the newspapers that Republican Senators and Congressmen were intent on taking this plum away from the Bay State. Things didn't look bright, according to the despatches.

Then over the wires from Washington came a bulletin that Ted had won his fight for the space lab. Actually, he had won the first round in his fight, but he won it by so decisive a margin that there seemed little doubt as to the final outcome.

The Electronic Research Center will be a tremenn special state and federal days and fees.

This is extremely disturbing the highway users and not commonwealth. From the standpoint of the people of simply because no one really Massachusetts it was about as important a fight as

GOP Leaders Discuss Move To Renominate 1962 Ticket

If the idea were successfully carried out—and at his stage the odds are heavily against it—the Republican lineup would have John A. Volpe as the candidate for Governor. George C. Ledge the name of the candidate of the result of the candidate of for Governor, George C. Lodge the nominee for U. S. Senate, Francis W. Perry the contender for Lieutenant Governor and Attorney General Edward W. Brooke a candidate for reelection.

There are two obvious obstacles to the scheme vised by some long-range GOP strategy-planners.

One is the that Volpe faces a hard struggle for endorsement for Governor at next June's Republican State Convention.

The other is that George Lodge and ex-Representative Perry are not interested in running next year for the U. S. Senate and the Lieutenant Governorship respectively.

It's conceivable that Perry might be persuaded to change his mind although it's unlikely.

Perry presently has no firm political plans. He might move into the gubernatorial battle; or he might run for the State Senate or the Governor's Council.

George Lodge has no intention whatever of assum ing the sacrificial role as the Republican standardbearer against Senator Edward M. (Ted) Kennedy.

Lodge, in fact, has told persons, who have approached him on the possibility of his running for Governor, that he plans to sit out the 1964 campaign chosen as "good bets" for and wait until 1966 before returning to the political

will pan in on a dream sequence of youth and all the bright yesterdays that light up our golden tomor

Here's a nod to nostalgia, but did you happen to notice the grand old man of golf, Francis Ouimet, during the recent U. S. Open at The Country Club? He looked granda gentleman, and a real gentle man.

Newspaper pictures and old films told a story of time's passage from the golden yesteryear of young Francis' surging golf victory at TCC. But his clothes told another story, one of progress and time-chiseled change. His clothes, in those long-ago pictures, looked like he had slept in them. For a week, at least, that's how wrinkled they were!

Now the real progress is in the smarter appearance of Men's sport clothes today. They are made of wrinkle-less fabrics, and have lightweight comfort and wearing-ease built right into them. Most slacks, for example, retain their creases, shed wrinkles, and hit for distance in longwearing smartness and good looks.

Today's crop of new fall Sportswear fashions that will soon be seen at Jacques won't help any man carve several strokes from his golf game. Nor will they insure him 100 per cent success in society.

But they can give him the necessary smart appear ance to help him rather than hinder him in his move upward to the better things in life. And the struggle has always been to go up. For isn't that the direction in which

well-balanced meals. Do not cut down your usual meats in favor of salads and fruits. Your body needs the same amount of protein for body pleted a timely set of do's and don't's for keeping the human "heat mechanism" functioning properly in extremely high temperatures.

Here are the Foundation's Here with the body's process for with the body's process for which the body's process for with the body is process. pointers:

How to Keep Cool—Stay indoors as much as possible. If you have to go out, wear a light straw or mesh hat.

Clothing — Wear light and loose-fitting porous weaves. Change clothing frequently, especially on days when you perspire heavily. Try to use loosely woven or open shoes.

Shower—Have the water at but they produce heat and

Mrs. Newman makes the process of becoming a writer sound as natural as a trip to the nearest shopping center. In fact, that is just how her career began.

When her daughter Paula was five and son Jeffrey had just turned three, Shirlee found some attractive dis-plays at Filene's then newlyopened children's department in Chestnut Hill. She described

John Vaccaro **E**nters Fight For Alderman

John L. Vaccaro of 150 Islington Rd., Auburndale, has announced his candidacy for alderman from War 4.

Mr. Vaccaro asserted that re-zoning, urban - renewal, air rights, recreation, human-relations and the many other vital problems facing Newton must be handled objectively.

He believes that by weighing the merits of both sides of the issues a successful conclusion may be reached . . . which "should maintain our exemplary residential characteristics, help lighten the tax burden and protect the value of private property.

Mr. Vaccaro went on to state that, "By improving our recreational facilities and recognizing the dignity of man. Newton will regain its status as a leader."

Charlesbank Residents In Protest Over Auto Menace

Residents of Charlesbank Road, Newton, alarmed by the traffic flow inbound and outbound between Nonan-Road and Newton Corner, have sent a petition to James H. Lawton, Registrar of Motor Vehicles, for stricter speed limitations and enforce-

The petition points out that speed laws are largely ignored, that residents of Charlesbank Roard are sub-

jected to constant dangers when trying to enter or leave their premises; and that the roar of cars with-out mufflers is a continuous disturbance throughout the night.

Copies of the petition have gone to the Newton Traffic Commission and the Newton Board of Aldermen, and also to the chairman of the Metropolitan District Commission. These bodies were informed

because part of Charlesbank Road is in the MDC jurisdic-tion and part in Netwon.

The petition carefully points out that the Newton Police are not being criticized, since constant patrol of the area involved is obviously impractical.

proposal of Marriott Motor Hotels of Newton, Inc., to create a \$4,000,000 motor hotel complex on Norumbega park land, raged again Monday night in City Hall, with form-Governor John A. Volpe taking a hand in the proced-

This time the matter was not presented at a regular meeting of the Board of Aldermen, as it was last November. Monday night's account was a public hearing held jointly by the commitand the Planning Board.

But just as was the case on last Nov. 13, the question brought out a gathering that taxed City Hall's seating capacity. When the hearing was opened at 7:45 by Alderman Harry H. Ham, Jr., Claims Rules chairman, were approximately 175 persons present, on the floor the chamber and in the bal-

Shows of hands as the hearing came to an end at 10:15, indicated that sentiment for and against the proposal was about evenly divided.

The earing differed from the previous one in a num-ber of ways. This time, opposition was not confined to property owners in the vi-cinity of Norumbega Park. The major fight was waged by a recently organized group, the Committee for Newton Norumbega Park. In addition, six civic organiza-tions voiced opposition as well as a number of indi-

The array of proponents differed this time, too. Not present was J. Willard Marriott, Sr., who started the Marriott organization some years ago. In his place was his son, L. Willard Marriott, Jr., president of Marriott Motor Hotels of Newton.

Another difference was provided by a former Gov-ernor of Massachusetts. John A. Volpe took the role of a character witness for the Marriott family. He spoke about its members and their methods of doing business in glowing terms, and having done so, remain-ed in the Aldermanic chamber all during the remainder of the session.

Better Scuba Equipment Is Aim of Basbas

City Clerk Monte G. Basbas who, with his son, is a skin diving enthusiast, has urged state adoption of standards in the use and manufacture of Scuba apparatus that will vide better protection for divers.

He advocates the use of compressed air in self-con-tained underwater breath-ing apparatus s i m i l a r to that proposed in New Jersey by that state's public health

Some of the makeshift compressors in general use, Bas-bas maintains, are hazardous in that by their use the diver MENACE—(See Page 2) McDONNELL—(See Page 4) can inhale carbon monoxide.

Progress Has Been Made On Many Bay State Fronts When my friend Jim Colbert asked me to set down

Bonnie Smith of Burr Park a few impressions of my first months in office, I began to think of all that had happened, in our State, in that time.

A year ago, I was engaged in an exhaustive campaign in which I had the opportunity to meet many

State and a real desire to work to make that future better. This interest has, if anything, increased over the last year. The prob-lems of our State have been attacked by scores of citizens with energy ideas, and the result has been the beginning of a momentous effort to build a better Massachusetts.

Progress has been made on many fronts: A number of significant new in-dustries have moved into Massachusetts. Our State has increased its share of

Mayor Gibbs Lends Hand In Men's Store Opening

Mayor Donald L. Gibbs of Newton will officially open the new men's store. Jacques, in Newton Corner this evening (Thurs. Aug. 15) to help pave the way for a new booming era in Newton's economy.

The new men's wear store is part of the proposed multi million dollar expressway development that can boost the general economic makeup of the Newton business scene.

Mayor Gibbs will preside at ribbon-cutting ceremonies at 7:30 p.m. for the quality-brand men's store in Jacques' new \$250,000 site at 345 Washington Street in Newton Corner.

Others taking part in the ceremonies will include Stan Marquedaunt, store manager; Jack Wallace, president and treasurer of the new firm; and Edward J. Bernard, vice-president. Several hundred friends, including leaders from the men's wear trade throughout the East, are expected to attend the official opening party tonight.

EVERY ONE WHO IS AFRAID

needs this book

to reassure him

Countless thousands have found freedom from fear in the midst of apparent conflict and chaos when they have prayerfully sought an understanding of God and man as revealed in Science and Health with Key to the Scriptures by Mary Baker Eddy.

Science and Health explains that fear is the cause of much inharmony and that as fear vanishes so does disease and pain and sorrow. And it teaches how to dispel fear effectively and permanently.

Science and Health may be read or examined, together with the Bible, at any Christian Science Reading Room. Or it may be purchased at \$3. CHRISTIAN SCIENCE

Allstate-for sensible rates on all kinds of insurance

Wherever possible, Allstate's rates are substantially lower than the rates of most other companies.

For example, Allstate Collision Insurance rates may save you as much as \$15-\$20.

For less than you may be paying for plain fire insurance, you can protect yourself against loss from fire, theft, personal injury claims and many other hazards with an Allstate Homeowners policy.

You'll be surprised, too, at the amount and kind of Allstate Life Insurance you can buy for a cost averaging as little as \$2.50 a week.

And Allstate Business Insurance rates are often 30%-40% lower than most other companies'.

It pays to do business with Allstate! Allstate Econo-Rate Finance

It was said that Newton's report on its 16-month survey was the first of its kind to be made at the Housing and Home Finance Regional Office in New York. It listed six in New York. It listed six Newton areas that may be

considered for renewal plans.

Mayor Gibb said the report be submitted to the Board of Aldermen in the middle of next month, when the mayor is likely to recommend that the aldermen approve the city's start in Phase 2 of Urban Renewal.

The Temple Sinai Religious School will continue to place special emphasis on its program of providing competent religious education under carefully trained teachers.

In conjunction with its program of religious education, the congregation encourages children to accompany their parents to High Holy Day services for family worship. For this reason the congrega-tion will again hold its servces during the Holy Days at Hancock Hall in Boston where ample facilities make it possible to carry out this policy.

Centrally located at Coolidge Corner, Brookline, Temple Sinai is conveniently reached by car, MTA, or School bus service which is available.

Charges Aldermen Duck Controversy

The Graphic

On more than one occasion The Graphic has reported the inability of the Newton Alder-manic Council to muster 100 percent attendance to vote on, among other things, the in-cinerator issue. cinerator issue.

If an issue were so impor-tant I would think the Alder men would at least all attend a meeting at once and vote on the subject. This is the minimum they could do for their constituents.

And, if the Aldermen were powerless to gather all their forces together, the mayor should be able to unite them. Since the May 23 issue of The Graphic, the Aldermen appear to have conducted themselves may be a strictly the strictl selves more efficiently than Registering For Religious School

Hibernians Are Softball Champs The Hibernians clinched the

championship of the City Softball League with a 2-0 win over Stowe-Woodward Monday night in the final playoff game at Victory Field. Hank Henry had a two-hit shutout for the Hibernians, and Walter Hoard of Stowe-Woodard also fired a two hitter, but he lacked the support Henry was given.

The Hibernians' two runs were scored in the fifth, when Steve Herring led off with a single, Johnson reached on an error, and so did Henry.

The winners came up with three double plays to help their cause.

Mayor Finds

Saying that the city was in "good shape," Mayor Donald L. Gibbs reported last week that on Aug. 1 Newton had a surplus of nearly \$1,000,000.

Included in the surplus ac count are the Massachusetts Turnpike Authority's payment of \$250,000 for the West New ton fire station, and \$80,000 fire insurance paid for the Horace Mann School.

The mayor pointed out that this year the city saved some \$7500 in interest by using surplus funds for street and sew er construction instead of is suing bonds for the work.

Summer Wedding Unites Miss Kuebler Mr. Dickson

At a 4 o'clock ceremony at the home of the bride's parents, Miss Cheryl Keubler became the bride recently of Robert William Dickson.

The Rev. and Mrs. Ernest William Kuebler of 100 Valentine street, West Newton, and Mrs. Donald Murray Dickson of Manchester and Hampton, N.H., and the late Mr. Dickson are the couple's parents.

White stock and Fuji mums made a pretty floral setting for the 4 o'clock afternoon service at which the bride's father, Dr. Kuebler, who is project director of the Hugh Moore Fund in New York, was the officiating clergyman.

Given away by her brother, Chrisotpher Charles Kuebler, the bride wore a traditional princess gown of ivory taffeta.

Hart, Schaffner & Marx. There's a name to conjure with Sounds like a vaudeville act on the old Keith circuit:

"Now, ladeez and gentlemen, introducing for you pleasure those scintillating performers radio, whose feats of legendary lapidification will thrill you and fill you with the greatest delight . . . here are those crowd-pleasers — Hart, Schaffner and Marx."

Actually, they are crowd-pleasers, and their clothes have been charming men and women down through some 75 years. Suits, coats and sport coats by Hart, Schaffner & Marx — they get top billing all over the country as the finest in men's clothing.

And here's that peerless personality, the new nifty of the retail rialto . . . Jacques of Newton Corner . . . teaming up with HS&M and a galaxy of other men's wear brands to bring you the best-looking fall clothes you ever saw.

No need to be a pitch-man when one has the newly-opened Jacques and HS&M talking for you. They both be-speak quality. Jacques' service, fit and fashion know-how supplement the fine quality fabrics and tailoring of the HS&M worsted suits shown in new, eye-appealing glen plaids, muted checks, sharkskins and herringbones.

The retailer and manufacturer are so well teamed, that it calls for double billing. Now, if the trumpet player in the pit will kindly put away his bottle of tea, we can strike up the band. So, bring on the new Jacques . . . and those masterful men's wear messiahs, Hart, Schaffner & Marx!

Board Approves 2 Retirements, Widow's Annuity

The Newton Retirement Board, comprising Ernest G. Angevine, Comptroller of Accounts Arthur A. Marr Jr., and Patrolman John J. Mullen approved a widow's pension and two retirements at the recent regular monthly meet-

ing.
The board approved an annuity for Mrs. Margaret Moran, 14 Philips Lane, New-tonville, widow of Thomas J. Moran, street department Sept. 8, from 9:30 a. m. to foreman, who died early this month after more than 33 years of service.

The retirements approved were for two employes of the street department, Peter Burns, 70, of Waltham, who had 44 years of service, and Edward J. MacPhee, 41, of 898 Boylston street, Newton Highlands, who served 17 years prior to being disabled. It was a non-service connected disability.

Allstate-for sensible rates on all kinds of insurance

Wherever possible, Allstate's rates are substantially lower than the rates of most other companies.

For example, Allstate Collision Insurance rates may save you as much as \$15-\$20.

For less than you may be paying for plain fire insurance, you can protect yourself against loss from fire, theft, personal injury claims and many other hazards with an Allstate Homeowners policy.

You'll be surprised, too, at the amount and kind of Allstate Life Insurance you can buy for a cost averaging as little as \$2.50 a week.

And Allstate Business Insurance rates are often 30%-40% lower than most other companies'.

It pays to do business with Allstate!
